

CornèrTrader (Stocks) for Desktop, Tablet and Smart Phone

QUICK START GUIDE

A quick introduction to using the CornèrTrader platform to trade stocks.

What is CornèrTrader

Fast and Simple

Designed to be fast and as easy-to-use as possible, the new CornèrTrader platform is a web-based platform that can be used from any HTML5-compatible web browser, from any device.

Excellent cross-device experience

CornèrTrader offers excellent cross-device experience between desktops, tablets and Smart Phones with the user-experience very closely aligned and your watch lists and preferences follow you between devices.

First-time startup experience

When you first enter the platform, you are guided through a few short steps to set your platform up to your requirements including:

- Regional preferences, language and number formats
 - Trading product and regional preferences – used to build watch lists of the most popular instruments for your selected region to get you started.
- Note:** products not selected will be hidden to simplify the platform. You can enable these trading products under the Trading Products from the Platform menu.
- MiFID questions for the products you enabled on the platform

Searching for new instruments

The header in the CornèTrader platform offers quick access to Search to find instruments quickly.

Click the product icon on a search result to open a menu of actions

CFD	Apple Inc. AAPL:xnas
EQ	Apple Inc. AAPL:xnas
TRADE	
ADD PRICE ALERT	
EQ	Apple Inc. APC:xetr
EQ	Apple Hospitality REIT Inc. APLE:xnys
EQ	Golden Apple Oil & Gas Inc.- NOCT GAPJ:xnas

Click the product icon on a result to Trade, add the Watchlist, open in the chart or add a price alert.

The Watchlist

The Watchlist is where you monitor instruments you are interested in.

Watchlist Selector

The Watchlist Selector allows you to access your own watch lists and access predefined watch lists for instruments you enabled on your platform during startup.

The screenshot shows the 'Watchlists' section of a trading platform. At the top, there are tabs for 'Watchlists' and 'Alerts'. Below this, a dropdown menu shows 'Stocks US - Large Cap' with an 'EDIT' button to its right. The main area is divided into two columns. The left column, titled 'Select Watchlist', contains three sections: 'My Watchlists' (with a star icon and a '+ New List' button), 'Standard Watchlists' (with various instrument icons like FX, CFD, EQ, and FU), and 'Recent' (with a star icon). The right column, titled 'Stocks by region', lists various regional stock indices with 'EQ' icons. Callout boxes with orange backgrounds and white text point to specific elements: 'Edit Watchlist' points to the 'EDIT' button; 'Watchlist selector' points to the 'Select Watchlist' header; 'My Watchlists' points to the 'New List' button; 'New Watchlist' points to the 'New List' button; 'Standard Watchlist' points to the 'Stocks by region' option; and 'Recent Watchlists' points to the 'Stocks US - Large Cap' entry in the 'Recent' section.

Searching for new instruments

The header in the CornetTrader platform offers quick access to Search to find instruments quickly.

The screenshot shows the search dropdown menu for 'XAU' with the following items:

- Popular Searches
- XAU EUR Gold/Euro
- XAU USD Gold/US Dollar
- TRADE button
- ADD PRICE ALERT button
- XAU AUD Gold/Australian Dollar
- XAU HKD Gold/Hong Kong Dollar
- XAU JPY Gold/Japanese Yen

Callout: Click the product icon on a search result to open a menu of actions

Click the product icon on a result to Trade, add the Watchlist, open in the chart or add a price alert.

The Watchlist

The Watchlist is where you monitor instruments you are interested in.

Watchlist Selector

The Watchlist Selector allows you to access your own watch lists and access predefined watch lists for instruments you enabled on your platform during startup.

The screenshot shows the 'Watchlists' interface. At the top, there are tabs for 'Watchlists' and 'Alerts'. Below this, there are dropdown menus for 'My Forex', 'TRIAL_204222', and 'EUR', along with an 'EDIT' button. The main area is divided into two panels: 'Select Watchlist' on the left and 'Forex' on the right. The 'Select Watchlist' panel is further divided into 'My Watchlists' (including 'My Forex', 'CFD Com', 'Stocks UK', 'Forex', 'CFD Indices', and 'New List'), 'Standard Watchlists' (including 'Forex', 'CFD by region', 'CFDs mid-cap', 'CFD Commodities', 'CFD Indices', 'ETFs', 'Stocks by region', 'Futures'), and 'Recent' (including 'CFD Indices', 'Stocks US - Large Cap', and 'Futures Asian'). The 'Forex' panel shows a list of watchlists: 'Forex Asian', 'Forex European', 'Forex Latin America', 'Forex Turkey', 'Forex UK', and 'Forex US'. Callout boxes provide the following descriptions:

- Edit Watchlist**: add new instruments and customize the current Watchlist
- Watchlist selector**: quickly select a customized or standard Watchlists
- My Watchlists**: your own customized Watchlist
- New Watchlist**: create a new (empty) Watchlist
- Standard Watchlist**: select pre-defined Watchlists for an exchange or region
- Recent Watchlists**: Recently selected standard Watchlists

Custom Watch lists

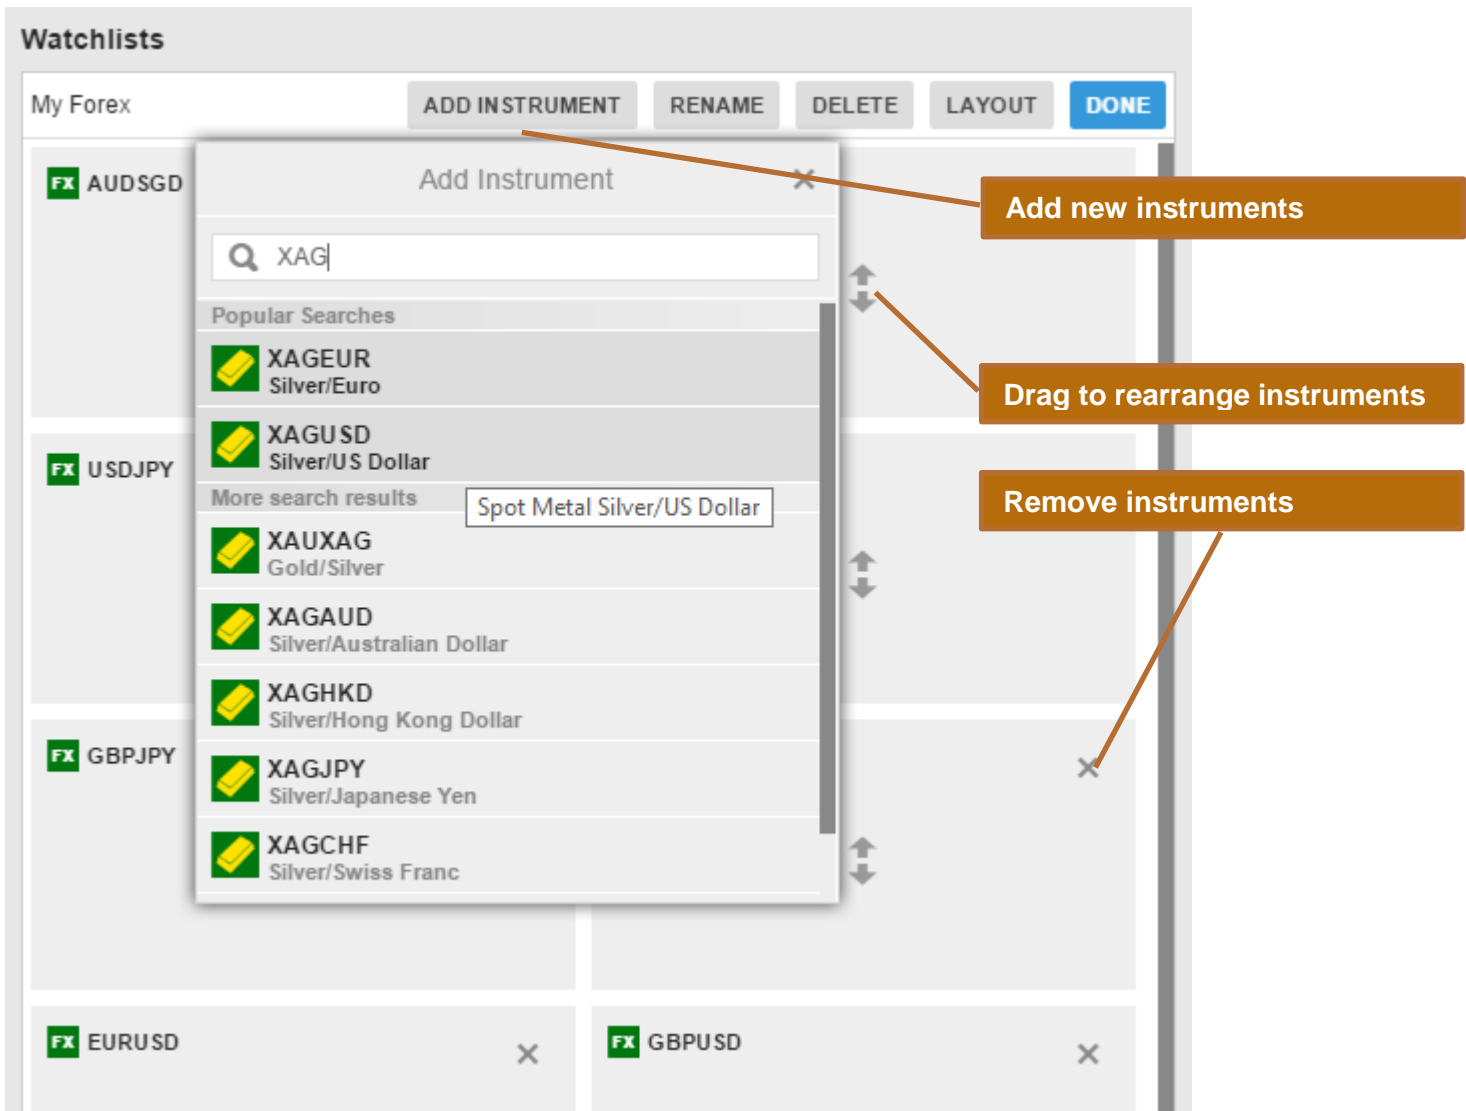

You can make a copy of a predefined Watchlist and edit it and select **Copy to my Watch lists**

Or start with an empty list by selecting **New List** from the Watchlist Selector.

Editing a Watchlist

Select Edit to start editing a Watchlist.

Add new instruments to use the **ADD INSTRUMENT** button and searching for instruments:

Move instruments up or down in the list by dragging the row.

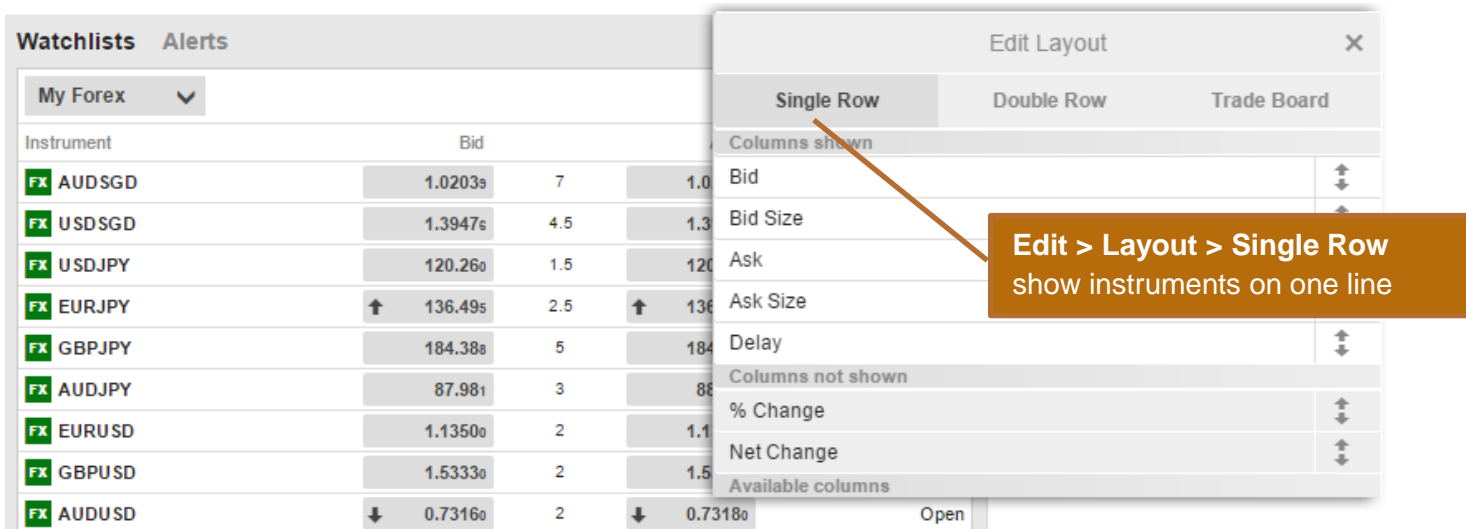

Delete instruments from the list by clicking the Delete (X) icon.

Watchlist List Mode

When in Edit, click **LAYOUT** to change the Watchlist type and the columns:

Single row list (Desktop only)

Single Row mode allows you to show most instruments.

Double row list

Double Row allows more information to be displayed for instruments in a limited screen area.

Placing Trades and Orders

Trade from the Trade Board

You can trade directly from the Trade Board:

The screenshot shows the Trade Board interface with two instrument panels. The EURUSD panel displays 'SELL - EUR' at 1.13827 and 'BUY - EUR' at 1.13847, with a '2' in a box below the sell price. The XAUUSD panel displays 'BID' at 1,165.18 and 'ASK' at 1,165.54, with 'Enable' buttons below each price and a '36' in a box below the bid price. Callout boxes provide instructions: 'Click to Enable' points to the 'Enable' buttons, and '2nd click to trade' points to the '2' in the box.

Click to Enable
If 2-click trading enabled, click the Bid or Ask button to Enable trading.

2nd click to trade
when enabled click again to trade.

If the trade buttons are green, the price is a live tradable price – the price you see is the price you get.

Trade from the Watchlist

You can also trade instruments from the Watchlist by clicking the button on the price field to open the Trade Ticket:

The screenshot shows the Watchlist interface for EURUSD. It displays the instrument name 'FX EURUSD Euro/US Dollar' and two price buttons: '1.13798' and '1.13818'. A callout box points to these buttons.

Trade from your watchlist
Click the price buttons to open the Trade Ticket.

Trade from the Overview panel

You can also open the Trade Ticket by searching and selecting instruments to open them in the Overview and clicking the Trade button in the header bar.

The screenshot shows the Overview panel for EURUSD. It displays the instrument name 'FX EURUSD Euro/US Dollar', a price of '13 727', a change of '0.00140 / 0.12%', and a 'TRADE' button. A callout box points to the 'TRADE' button.

Trade selected instrument from Overview panel
Select an instrument from the Search, Watchlist, Positions or Orders and click Trade.

The Trade Ticket

The Trade Ticket allows you to place trades and orders for a selected instrument and to add related orders to protect your trade (stop-loss orders) and take profit if the trade reaches your target price.

Live Trades

To Trade an FX cross live tradable prices, select **Trade** from the Trade/Order selector

If the buttons are green, the price shown is the price you will be filled at. Green prices are only available when the market is open for:

If the market is closed or live prices are not available, you can use market orders to place a trade at the best price available from the market.

Select Trade
To trade immediately on live (green) prices

Placing an FX Order

To place an FX trade order, select the order type from the Trade/Order selector.

Market Overview

The Market Overview panel gives an overview of price information, charts and news for instruments selected from the:

- Search field
- Watchlist
- Positions list
- Orders list

The Market Overview shows:

- the price action, including Last Traded, Bid / Ask, Today's low and high, the market status and the Bid and Ask size (for stocks)
- a Chart of the price for the selected time range from 1 day to 5 years
- any News stories
- a Company Snapshot giving fundamentals the company fundamentals (for stocks)

Charts

The Chart allows you to have up to 4 charts for the selected instrument with different chart types, time periods and studies.

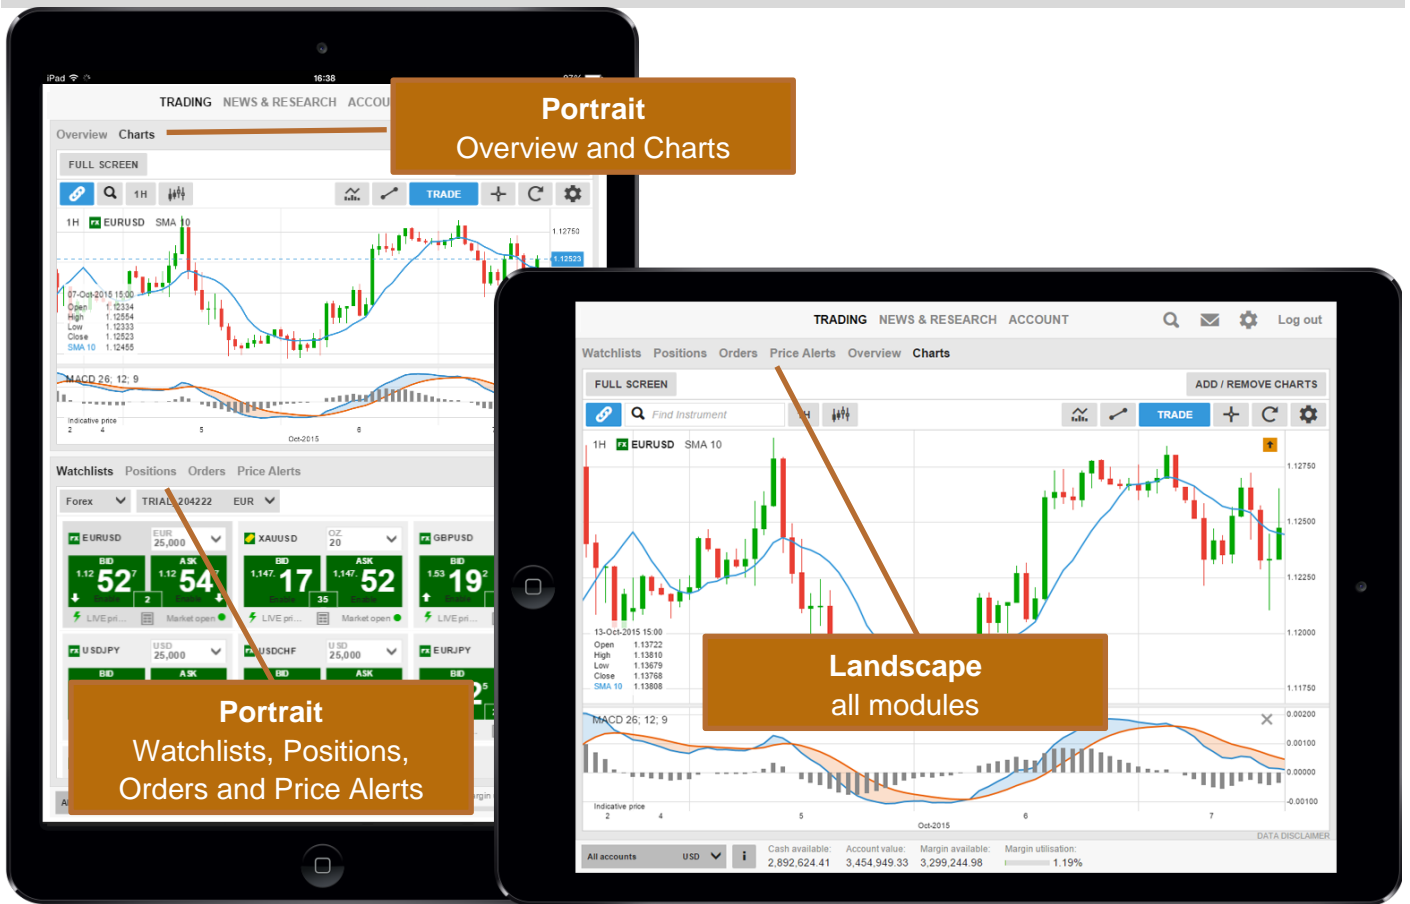

Account Services

Account services are from the Account tab at the top of the platform and include:

- Account overview
- Account Performance
- Cash management – transferring funds to and from your account
- Subscriptions management – managing subscriptions to live exchange prices, news services and Equity Research
- Instrument trading conditions
- Reports – statements, Trades executed dividend payments, etc.
- Activity Log

Trader on Tablets

Trader on Smart Phones

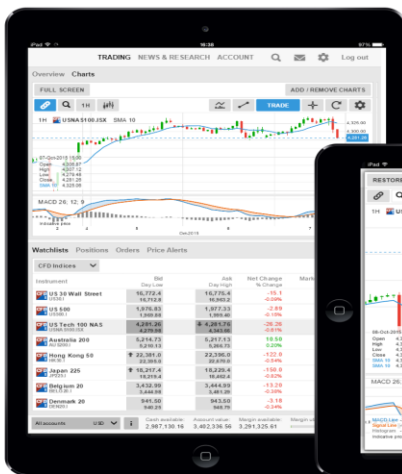

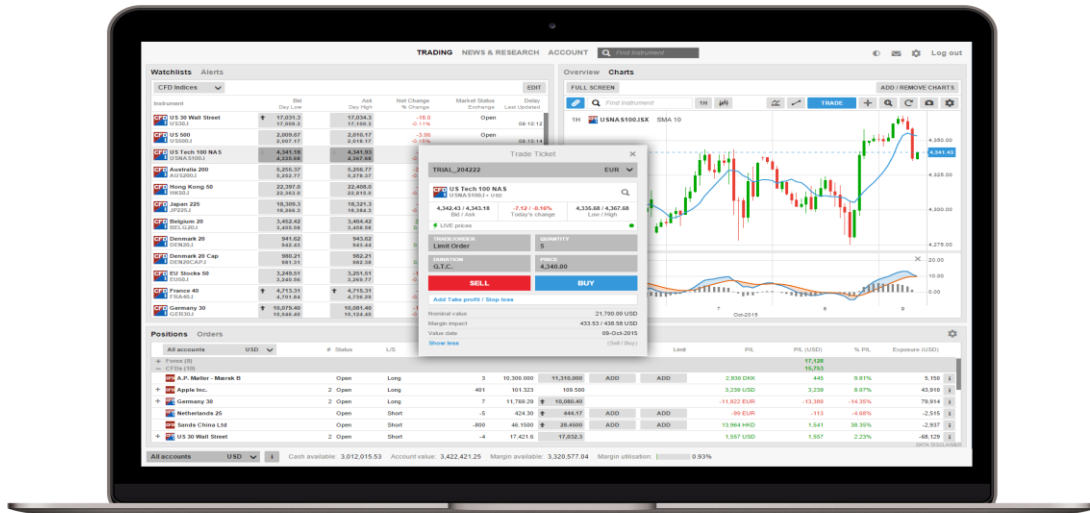

All modules are accessed from the menu 

CornèrTrader (CFDs) for Desktop, Tablet and Smart Phone

QUICK START GUIDE

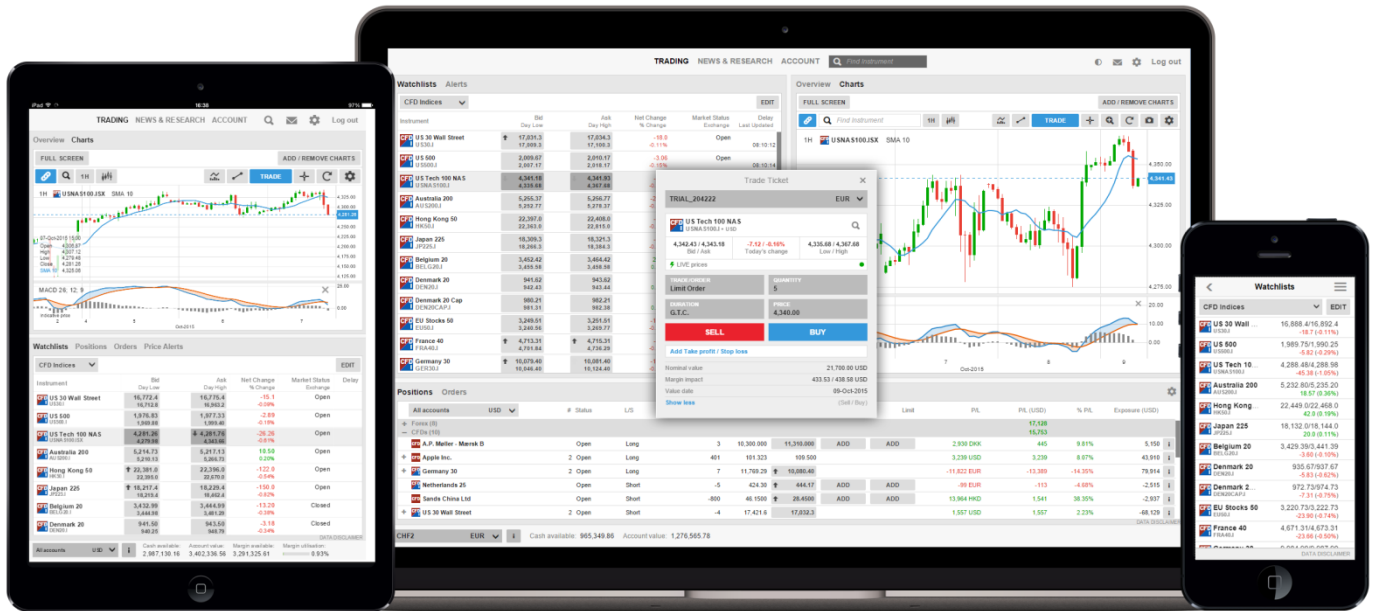

A quick introduction to using the CornèrTrader platform to trade CFDs.

What is the CornèrTrader platform

Fast and Simple

Designed to be fast and as easy-to-use as possible, the new CornèrTrader platform is a web-based platform that can be used from any HTML5-compatible web browser, from any device.

Excellent cross-device experience

CornèrTrader offers excellent cross-device experience between desktops, tablets and Smart Phones with the user-experience very closely aligned and your watch lists and preferences follow you between devices.

First-time startup experience

When you first enter the platform, you are guided through a few short steps to set your platform up to your requirements including:

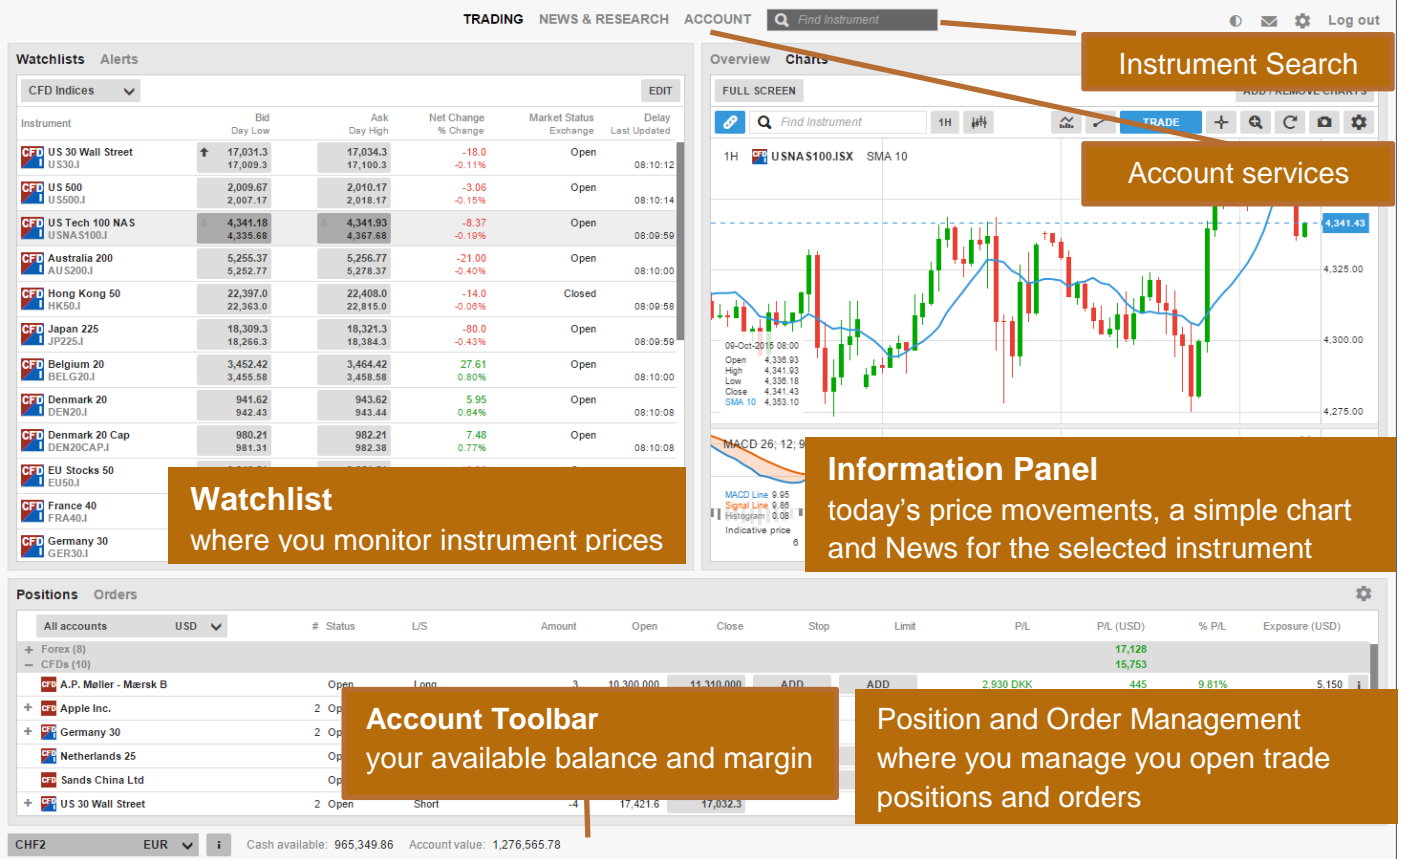

- Regional preferences, language and number formats
- Trading product and regional preferences – used to build watch lists of the most popular instruments for your selected region to get you started.

Note: products not selected will be hidden to simplify the platform. You can enable these trading products under the Trading Products from the Platform menu.

- MiFID questions for the products you enabled on the platform

These settings can later be changed under Platform Settings available from the Platform Menu .

Trader on the desktop

The screenshot shows the main interface of the CornèTrader platform. At the top, there are navigation tabs for TRADING, NEWS & RESEARCH, and ACCOUNT, along with a search bar labeled 'Find Instrument'. On the left, a 'Watchlists' section displays a table of various instruments with their current prices and changes. On the right, a 'Charts' section shows a candlestick chart for 'USNAS100.ISX' with a blue moving average line and a MACD indicator at the bottom. Below the charts is a 'Positions' table showing open and closed trades for various accounts.

Instrument Search
 A search bar at the top right of the interface, labeled 'Find Instrument', used to locate specific trading instruments.

Account services
 A button labeled 'TRADE' located in the top right corner of the chart area, used to execute trades for the selected instrument.

Watchlist
 where you monitor instrument prices

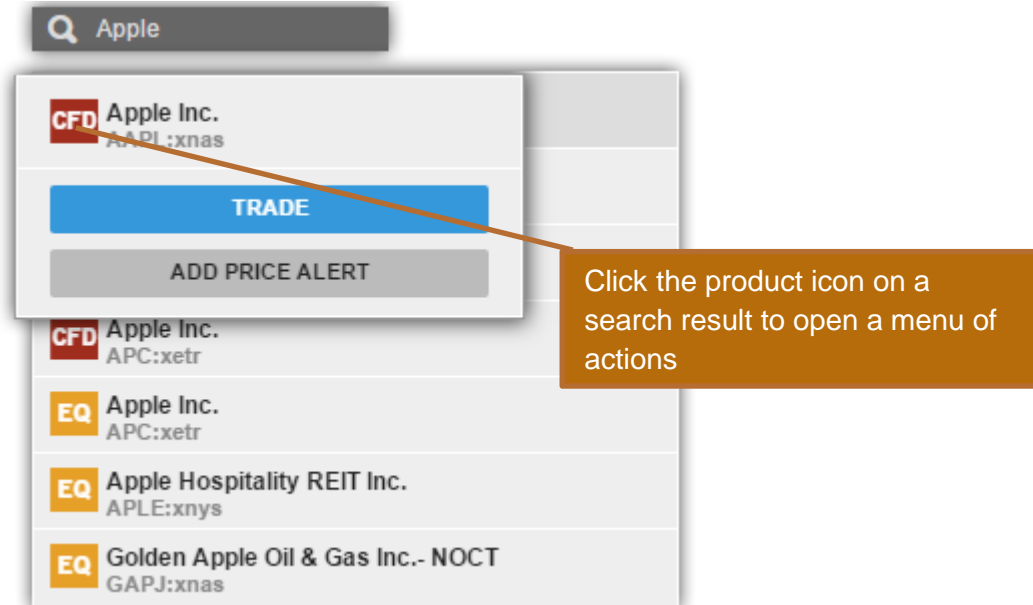

Information Panel
 today's price movements, a simple chart and News for the selected instrument

Account Toolbar
 your available balance and margin

Position and Order Management
 where you manage you open trade positions and orders

Searching for new instruments

The header in the CornèTrader platform offers quick access to Search to find instruments quickly.

The search interface shows a search bar with the text 'Apple'. Below the search bar, a list of search results is displayed. Each result includes a product icon (CFD, EQ), the company name, and the instrument symbol. A callout box points to the 'TRADE' button in the first result, indicating that clicking the product icon opens a menu of actions.

Click the product icon on a search result to open a menu of actions

Click the product icon on a result to Trade, add the Watchlist, open in the chart or add a price alert.

The Watchlist

The Watchlist is where you monitor instruments you are interested in.

Watchlist Selector

The Watchlist Selector allows you to access your own watch lists and access predefined watch lists for instruments you enabled on your platform during startup.

The screenshot shows the 'Watchlists' section of a trading platform. It features a 'Watchlists' tab and an 'Alerts' tab. A dropdown menu is set to 'CFD Indices'. An 'EDIT' button is visible in the top right. The main area is divided into two panes: 'Select Watchlist' on the left and 'CFD by region' on the right. The 'Select Watchlist' pane is categorized into 'My Watchlists', 'Standard Watchlists', and 'Recent'. 'My Watchlists' includes 'My Forex', 'CFD Com', 'Stocks UK', 'Forex', 'CFD Indices', and 'New List'. 'Standard Watchlists' includes 'Forex', 'CFD by region', 'CFDs mid-cap', 'CFD Commodities', 'CFD Indices', 'ETFs', 'Stocks by region', 'Futures', and 'Recent'. 'Recent' includes 'CFD Indices', 'Stocks US - Large Cap', and 'Futures Asian'. The 'CFD by region' pane lists various regions with a 'CFD' icon, such as 'CFDs Asian', 'CFDs Australia', 'CFDs Austria', 'CFDs Belgium', 'CFDs Brazil ADR', 'CFDs Canada', 'CFDs Czech Republic', 'CFDs Denmark', 'CFDs European', 'CFDs Finland', 'CFDs France', 'CFDs Germany', 'CFDs Greece', 'CFDs Hong Kong', 'CFDs Hungary', 'CFDs Japan', 'CFDs Middle East', 'CFDs Netherlands', and 'CFDs Nordic'. Callout boxes provide the following information:

- Edit Watchlist**: add new instruments and customize the current Watchlist
- Watchlist selector**: quickly select a customized or standard Watchlists
- My Watchlists**: your own customized Watchlist
- New Watchlist**: create a new (empty) Watchlist
- Standard Watchlist**: select pre-defined Watchlists for an exchange or region
- Recent Watchlists**: Recently selected standard Watchlists

Custom Watch lists

You can make a copy of a predefined Watchlist and edit it and select **Copy to my Watch lists**

Or start with an empty list by selecting **New List** from the Watchlist Selector.

Editing a Watchlist

Select Edit to start editing a Watchlist.

Add new instruments to use the **ADD INSTRUMENT** button and searching for instruments:

Placing Trades and Orders

Trade from the Trade Board

You can trade directly from the Trade Board:

Trade from your watchlist

Click the price buttons.

Click to Enable
If 2-click trading enabled, click the Bid or Ask button to Enable trading.

2nd click to trade
when enabled click again to trade.

If the trade buttons are green, the price is a live tradable price – the price you see is the price you get.

Trade from the Watchlist

You can also trade instruments from the Watchlist by clicking the button on the price field to open the Trade Ticket:

Trade from your watchlist
Click the price buttons to open the Trade Ticket.

Trade from the Overview panel

You can also open the Trade Ticket by searching and selecting instruments to open them in the Overview and clicking the Trade button in the header bar.

Trade selected instrument from Overview panel
Select an instrument from the Search, Watchlist, Positions or Orders and click Trade.

The Trade Ticket

The Trade Ticket allows you to place trades and orders for a selected instrument and to add related orders to protect your trade (stop-loss orders) and take profit if the trade reaches your target price.

Live Trades

To Trade a CFD on live tradable prices, select **Trade** from the Trade/Order selector

If the buttons are green, the price shown is the price you will be filled at. Green prices are only available when the market is open for:

If the market is closed or live prices are not available, you can use market orders to place a trade at the best price available from the market.

The image shows two side-by-side screenshots of a trading interface for 'Germany 30' (CFD, GER30.ISX • EUR). The left screenshot is titled 'Trade' and shows a 'TRADE/ORDER Trade' button with a green '10,113.90' price. The right screenshot is titled 'Trade Ticket' and shows 'TRADE/ORDER Trade' and 'QUANTITY 3' buttons, with green '10,114.40' (SELL) and '10,116.90' (BUY) prices. A brown callout box points to the 'Trade' button in the left screenshot.
